

Manufacturer of Ultrasonic Cylinder Test Equipment and Acoustic Emission Tests

FOR IMMEDIATE RELEASE

(Centennial, CO, USA. March 30th 2011) - DIGITAL WAVE CORPORATION ANNOUNCES THE RELOCATION OF THEIR CORPORATE OFFICE AND MANUFACTURING FACILITY.

Digital Wave Corporation (www.digitalwavecorp.com) announced today that they have relocated their corporate office and manufacturing facility to a larger commercial property. The decision to move the company followed a rapid expansion of the business which required a larger space to perform efficiently. The new headquarters (approximately 52,000 square feet in size) are located at:

13760 E Arapahoe Road, Centennial, CO 80112

Dr. Mike Gorman, President of Digital Wave Corporation, is quoted as saying "This relocation is instrumental in accommodating the expansion that Digital Wave has experienced over the past year. We anticipate producing our UE machines at a much greater capacity and efficiency in the new space."

Digital Wave Corporation is a privately held ultrasonic examination (UE) cylinder inspection manufacturer and modal acoustic emission (AE) testing company. With applications worldwide, Digital Wave and its partners serve private and governmental clients in the compressed gas, pressure vessel and cylinder industries. The firm's PhD's, engineers, software programmers, field techs and manufacturing staff are ranked with the best in the industry. For more information on our cutting edge technologies, please feel free to contact us at anytime regarding your application.
