

Manufacturer of Ultrasonic Cylinder Test Equipment and Modal Acoustic Emission Service Provider

FOR IMMEDIATE RELEASE

(Centennial, CO, USA. September, 2010) - DIGITAL WAVE CORPORATION RECEIVES UE EQUIVALENCY CERTIFICATE FROM TRANSPORT CANADA (EC SU 10112).

Digital Wave Corporation is the first UE machine manufacturer to be granted a Transport Canada Equivalency Certificate (EC) for the ultrasonic examination (UE) recertification of seamless high pressure gas cylinders. The EC was granted after the Transport Canada audit of Digital Wave's UE1 and UE23 scanning systems and procedures. EC SU 10112 allows Digital Wave to recertify TC-3AM, TC-3AAM, TC-3ANM and TC-3ALM cylinders, as well as many of the PELS or Special Permit cylinders, and stamp the cylinders with our registered mark, 628. This new approval opens the doors for Canadian customers to utilize this proven technology.

Digital Wave Corporation is a privately held manufacturer of ultrasonic examination (UE) cylinder testing equipment, modal acoustic emission (AE) testing equipment and a provider of associated inspection services. With applications worldwide, Digital Wave and its partners serve private and governmental clients in the compressed gas, pressure vessel and cylinder industries. The firm's PhD's, engineers, software programmers, field techs and manufacturing staff are ranked with the best in the industry. For more information on our cutting edge technologies, please feel free to contact us at any time.
